-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 09/08/03 (Continuation Application).
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1742

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 9 is rejected under 35 U.S.C. 102(b) as being anticipated by any of Chang et al. (U.S. Patent 4,661,156) or Huang et al. (U.S. Patents 4,710,247 or 4,725,322).

The prior art discloses examples of  $\text{Ni}_3\text{Al}$  foils less than 200 microns in thickness; see Chang column 5, line 20, Huang '247 column 7, line 20, or Huang '322 column 4, line 52. These materials would inherently possess some room temperature ductility value. The examiner submits that the prior art embodiments which are substantially pure  $\text{Ni}_3\text{Al}$  would contain about 13.3% aluminum by weight thusly:

atomic weight of Al = 27, atomic weight of Ni = 58.7

$$27 / ((3 \times 58.7) + 27) = 0.133 \text{ or } 13.3\%$$

The examiner has not performed numerical calculations for other embodiments of the prior art, but believes that compositions containing small amounts of boron or carbon (which are very lightweight elements) would also meet the compositional limitations of the instant claim. Consequently, the claimed invention is held to be fully met by the disclosures of the Chang et al. or Huang et al. patents.

3. The remainder of the art cited on the enclosed PTO-892 and 1449 forms is of interest. This art is held to be no more relevant to the claimed invention than the art as applied in the rejections, supra.

4. The Drawings submitted with this application are objected to because Figures 2, 4 and 5 appear to be photocopies of photographs, and contain portions which are unclear or out of focus in the drawings as filed and will not print properly in the issued patent. Formal drawings are required in response to this Office Action. Applicant is reminded that drawing corrections may no longer be held in abeyance; see 37 CFR 1.85(a).

5. This is a continuation of applicant's earlier Application No. 10/038,812. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
